

KLEVIS LIKA

SENIOR SOFTWARE ENGINEER – Python / AI Systems / Automation / FastAPI

klevis@klika.dev | linkedin.com/in/klevisi/ | Tirana, Albania

Software engineer with 6+ years of experience building backend systems, AI applications, ERP workflows, APIs, and internal tools. Built an AI lead discovery and enrichment platform using AWS, Qdrant, Playwright, and PostgreSQL. Strong experience with Python, Odoo, integrations, and automation. Comfortable working with product, business, and technical teams.

WORK EXPERIENCE

DigitSapiens - Apr. 2024 - Present | Tirana, Albania

Software Developer

- Built and scaled an AI-driven lead discovery and enrichment platform using AWS SQS/SNS, PostgreSQL, Qdrant for semantic retrieval, and Playwright.
- Improved backend and Odoo performance for high-volume workloads.
- Integrated third-party systems via REST APIs and optimized database queries.
- Worked with product, business, and technical teams on requirements, features, and integrations.

Communication Progress - Aug. 2020 - Feb. 2024 | Tirana, Albania

Software Developer

- Designed, developed, and tested Odoo modules in Python across Odoo v11, v15, and v17.
- Handled PostgreSQL upgrades and migrations and optimized slow queries.
- Built APIs, implemented UI with Odoo OWL, and resolved latency in a C++ device integration.
- Guided developers and business analysts on technical decisions and feature development.

EDUCATION

Canadian Institute of Technology, CIT - July 2021 | Tirana, Albania

BSc in Software Engineering

- Co-founded “Women in Tech” outreach.
- 1st place, National Programming Competition, 2014.

Institute “Harry Fultz” - July 2018 | Tirana, Albania

Electronics Diploma

- Winner, Startup Weekend Tirana 2016.

TECHNICAL SKILLS

- Backend: Python, FastAPI, Odoo, REST APIs, Java, C++
- AI / Automation: AI workflows, Qdrant, Playwright, web data collection
- Frontend: JavaScript, React, Odoo OWL
- Data: PostgreSQL, MySQL, SQL Server, MongoDB, query optimization, migrations
- Cloud / DevOps: Azure, AWS, Kubernetes, Docker, SQS/SNS
